

10 April 1954

Memorandum For Director of Central Intelligence

Subject Congressional Breakfast of 14 April 1954

1. On Wednesday 14 April, the DCI will entertain the members of the S.O.S. Club at a breakfast briefing in the Administration Building at 0800. The S.O.S. Club consists of 15 freshman Republican Congressmen who breakfast once a week with Government officials or other distinguished guests. The common denominator of membership includes the fact that these Republicans were all 35 years old or less when elected. (although there are a couple of ringers in the group). The program chairmanship of the group rotates each month. Congressman Frelinghuysen is the program chairman for April and responsible for this meeting. Congressmen Rhodes of Arizona also indicated a desire for this meeting.

2. Breakfast will be served in the Director's dining room and will be followed by a generalized informational briefing on CIA in the Director's conference room. It is recommended that the briefing outline the place and role of CIA in the Government, its general organization, and the production of national intelligence with little reference to operational details.

3. Attached herewith is a dossier on the members of the S.O.S. Club, all 15 of whom plan to attend the meeting.

Walter L. Pforzheimer
